

SUSTAINABLE DEVELOPMENT GOAL 4

**The Dubai Roadmap for Education 2030
in the Arab Region (2018 - 2017)**

Sustainable Development Goal 4

The Dubai Roadmap for Education 2030 in the Arab Region (2017-2018)

1. We, the officials of Governments in the Arab Region, United Nations co-convenors, civil society organizations, professional unions as well as technical and development partners, gathered at the Second Arab Regional Meeting on SDG 4 – Education 2030 (ARMED II) on 6 and 7 March 2017 in Dubai, United Arab Emirates. The ARMED II has been co-organized by the United Nations Educational, Scientific and Cultural Organization (UNESCO) and Regional Center for Educational Planning (RCEP) with the support of regional partners under the auspices of His Excellency Dr Hussain Ibrahim Al Hammadi, Minister of Education, United Arab Emirates.
2. Recalling the First Arab Regional Meeting on SDG 4 – Education 2030 (ARMED I) held in Cairo in December 2016, and reaffirming the centrality of education in sustainable development, we recognize that the SDG 4 agenda inspires us to pursue a humanistic vision of education and development based on human rights and dignity, social justice, protection, cultural diversity, and shared responsibility and accountability. Also, it is underpinned by the principle that education is a public good, a fundamental human right and a basis for guaranteeing the realization of other rights. Furthermore, it is essential for peace, human fulfillment and sustainable development.
3. Given that some of the countries in our region are afflicted with protracted crises to the detriment of the lives, rights and livelihoods of millions of displaced persons and communities as well as those in host countries affected by crises, we reaffirm the transformative power of quality education in preventing and mitigating the impact of conflict, providing protection in time of crisis, equipping the affected with the necessary knowledge and skills to recover and reconstruct, and giving hope for the future. We also remain dedicated to the inclusion of refugee children and youth systematically in national educational planning processes in order to monitor their participation and educational attainment. In order to maximize this opportunity of the Agenda for 2030, we recognize the need to address challenges confronting our countries and the region as a whole by diversifying learning pathways from a lifelong perspective, improving learning as central to enhancing quality, and reexamining youth and skills for the world of work, among others.
4. In this sense, the SDG 4 agenda has given us all an opportunity to rethink education in a collective, cooperative manner and to guide its transformational process towards achieving equitable, inclusive and quality education and lifelong opportunities for all, which in turn makes *'Transforming our world: the 2030 Agenda for Sustainable Development'* a reality for all.
5. Recognizing the interconnected nature of the realities on the ground, the SDG4 agenda is inextricably linked and contributes to other SDGs; namely SDG1 No Poverty, SDG2 Zero Hunger, SDG3 Health and Well-being, SDG 5 Gender Equality, SDG 8 Decent Work, and SDG 16 Peace, Justice and Strong Institutions. Most education interventions, to be successful, rely on integrated approaches to ensure well-fed, healthy, protected children

and youth who have equitable access, appropriate facilities, skills for life and work and supportive institutions giving hope for a peaceful and just future.

6. Having adopted the Arab Regional Roadmap for SDG 4 and Education 2030 (Cairo Roadmap) at ARMED I, we, Arab Member States and partners, have since commenced implementation of the Agenda as appropriate and relevant to national contexts. More than one year down the road from the adoption of the Cairo Roadmap, we have come together in Dubai to review and reflect on our performance on the implementation of the Cairo Roadmap and at the same time, learn from our experiences gained and challenged encountered, and more importantly to agree on a roadmap for 2017-2018.
7. Having met three times in 2016, a group of partners that had committed to the Cairo Roadmap established a regional group called 'Arab Regional Support Group for SDG 4' in July 2016, defined its terms of reference, undertook several joint activities such as development of a dedicated portal, technical training on indicators, and agreed to scale up collective support actions in 2017 and 2018 with focus on regional technical guidance, country-based support, advocacy and communication, reporting and monitoring, and financing.
8. Cognizant of the fact that the Cairo Roadmap was not fully implemented and of the need to continue to put in place/reinforce/further support nationally-led mechanisms and initiatives in order to fully unpack and mainstream the vision, principles and targets of SDG 4 into national education development processes, we, Member States and Partners, hereby adopt the *Dubai Roadmap for 2017-2018* and reiterate our commitment to transforming our education system in pursuit of achieving the ambitious goal by 2030. Concretely, we seek to adopt a set of following actions to be carried out in 2017 and 2018. In so doing, we commit to sharing our experiences and expertise on a regular basis, developing brief annual progress reports on the Roadmap implementation, and meeting in 2018 (ARMED III) to once again review and reflect on our progress collectively.
